

About Us

Founded in 2006, IT Energy was the UK's first systems integrator focused solely on Green IT within the workplace.

With accreditation from growing number of energy management software vendors including Verdiem, and GreenPrint Technologies, IT Energy uses its expertise to help organisations make immediate power from desktop PC and consumable saving workgroup printer communities. With customers across Financial Services, Legal, Local Government, Education and General Enterprise – IT Energy is delivering highly quantifiable benefits for organisations of all sizes through centrally managed software solutions backed up by professional consulting and integration services.

For more information on our services and how we can help your organisation reduce the impact you have on the environment and saving money in the process, please look around this website and contact us.
